IMPORTANT

SAFETY INSTRUCTIONS:

When using electrical products, basic precautions should always be followed, including:

READ AND FOLLOW ALL SAFETY INSTRUCTIONS:

CAUTION:

- To reduce the risk of electric shock:
 - a.) Do not install on trees needles, leaves, or branch coverings made of metal or materials that look like metal.
 - b.) Do not mount or support strings in a manner that might cut or damage wire insulation.
- This is an electrical product – not a toy! To avoid risk of fire, burns, personal injury, and electric shock it should not be played with by children or placed where children can reach it.
- Do not use seasonal products outdoors unless they are marked as suitable for indoor and outdoor use. When

products are used in outdoor applications, connect the product to a Ground Fault Circuit Interrupting (GFCI) outlet. If one is not provided or available, contact a qualified electrician for proper installation.

- This seasonal use product is not intended for permanent installation or use.
- Do not mount or place near gas or electric heaters, fireplaces, candles, or other similar sources of heat.
- Do not secure the wiring of the product with staples or nails, or place on sharp hooks or nails.
- Do not let lamps rest on the supply cord or on any wire.
- Unplug the product when leaving the house, when retiring for the night, or if left unattended.
- Do not use this product for any purpose other than its intended use.
- Do not hang ornaments or other objects from cord, wire or light string.
- Do not close doors or windows on the product or extension cord as this may damage the wire insulation.
- When in use, do not cover the product with cloth, paper or any material not part of this product.

USE AND CARE INSTRUCTIONS:

- When the product is placed on a live tree, the tree should be well maintained and fresh.
- Do not place on live trees in which the needles are brown or break off easily. Keep the tree reservoir filled with water.
- If the product is placed on a tree, the tree should be well secured and stable.
- Before using or reusing, inspect product carefully. Discard any products that have cut, damaged, or frayed wire insulation or cords, cracks in the lamp-holders or enclosures, loose connections or exposed copper wire.
- When storing the product, carefully remove the product from wherever it is placed, including trees, branches, or bushes to avoid any undue strain or stress on the product's conductors, connections, and wires.
- When not in use, store neatly in a cool, dry location protected from sunlight.

CONNECTING CLASS 2 POWER SUPPLY TO LIGHT STRING:

NOTE: Use only approved Versaline® Power Supplies with this product. Do not use Versaline® Power Supplies with any Non-Versaline products.

- 1.) Remove the power supply from its protective packaging.
- 2.) The light string and Power Supply are fitted with Versaline connectors.

- 3.) Align the markings on the connectors.

- 4.) Fully connect the male connector on the light set with the female connector on the Power Supply.

- 5.) Slide the lock cap over the locking tabs and twist the lock cap until secure. Approximately a quarter-turn of the lock cap should lock it in place securely.

OPERATION INSTRUCTIONS:

- The controller has 6 function settings which can be selected by pressing the button multiple times to cycle through the following settings:

1. Off
2. Steady Glow
3. Shimmer
4. Starfield
5. Chaser
6. Lightning
7. Stacker

- Once you select the desired function, the controller will remember your selection even if you disconnect the unit from power.
